

ILAP Partner Program

ILAP helps your business deliver the solutions your clients need.

ILAP, a premier Internet Service Provider, was founded in February 1995. Through constant technical innovation and service excellence, ILAP has established itself as a leading Internet Service Provider in Canada. Our solutions exceed the industry standards for performance and we back these claims with superior Service Level Agreements.

We serve a broad client base in a variety of sectors, including entertainment and media, manufacturing and engineering, retail, financial services and arts and education.

Expand your service offerings

Expand your service offerings by delivering the solutions your clients require.

Access

ILAP can support any size business with robust high-speed Nationwide Internet access.

Co-Location

Provide your clients unmatched security and reliability in ILAP's secure and fully monitored co-location environment backed by uptime service guarantees.

Hosting

Provide superior web and database hosting services supported by ILAP's rock solid network.

Email

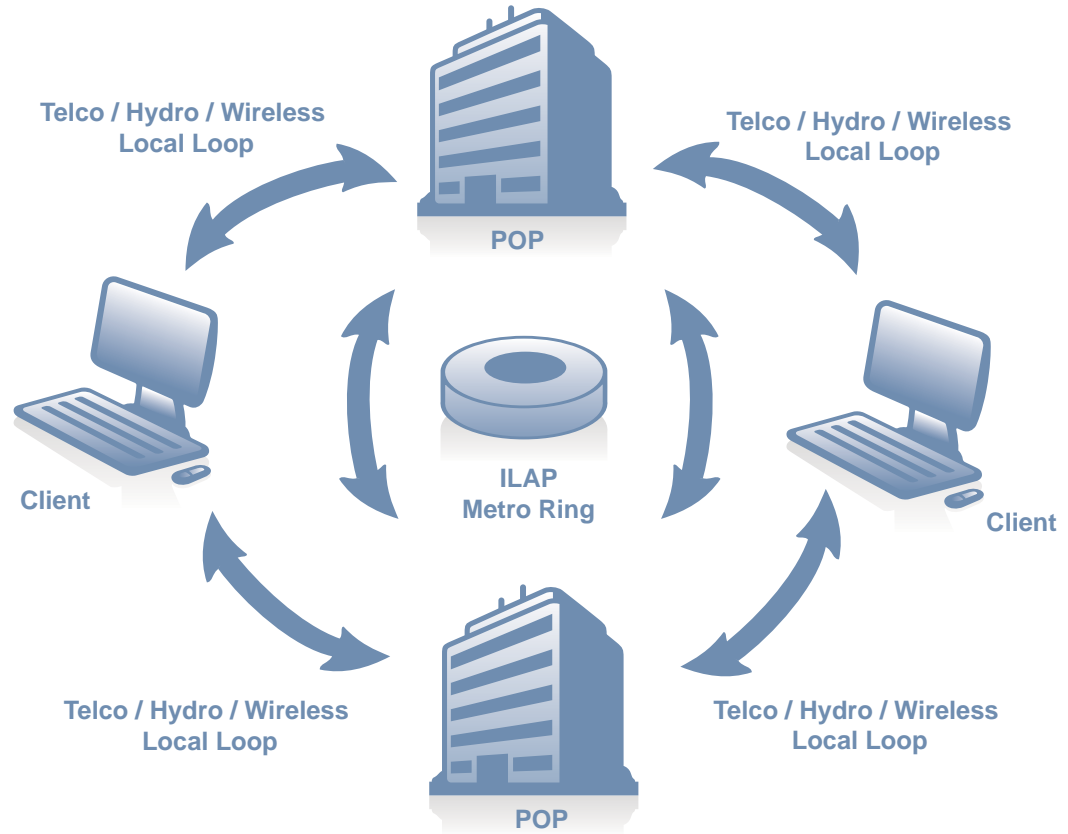

From corporate email accounts to anti-spam protection, ILAP can fulfill all your clients email requirements.

Development

Trinitas, ILAP's development division, can help your clients move their business online, attract new prospects, and save time and money with an online application or website.

It's all about choice at ILAP

We provide our clients with the best possible solution for their business by combining the ILAP network with one or more local loops.

Our network is designed for businesses that demand speed, reliability and stability. From 1Mbps to 1Gbps, we offer the right access solution to meet the requirements of any size business.

Grow your business with an ISP you can trust

Generate additional revenue, receive referral business, and expand your service offerings with ILAP's Partner Program. By partnering with ILAP, your organization can provide Internet related services to your clients, secure in the knowledge that these services are backed by a dedicated technical and customer service team.

Some of the direct benefits your organization will receive are:

Commission Plan

Earn generous commissions on monthly recurring revenue on all new business referrals.

Referral Business

Expand and increase your business with referral business from ILAP.

Experience

ILAP has been delivering superior Internet services to Central Canada since 1995.

Problem Ownership

We believe in taking ownership of problems in order to ensure a swift resolution. By working closely with our partners to resolve issues for clients, both businesses will benefit.

Business Ethics

ILAP was built on strong business ethics. The same is said with our relationships with our partners.

Superior Technical/Customer Support

ILAP provides superior technical support and customer service to clients and partners. Our technical staff is available to your business anytime we are needed. All our hardware, connections, and virtual web servers are monitored 24 hours a day, 7 days a week.

Reliability

We have made tremendous investments in hardware, software and people to ensure your clients receive a superior, reliable Internet experience. Our state-of-the-art data center and superior Service Level Agreements are examples of our commitment to reliable service.

Performance

ILAP tightly integrates its solutions with the products and services of leading partners such as Cisco Systems, Sun Microsystems, and Oracle Corporation to ensure superior performance.
