

# [ HOSTING ]

## *Your Hosting Solution*

The Internet has unlocked tremendous business opportunities for both established and developing organizations. Ensuring your website or mission critical application is accessible 24 hours a day, 7 days a week is pivotal to your organization's success. At ILAP we understand the requirements of providing high-end hosting solutions to our clients.

### **ILAP Hosting Benefits:**

Flexibility and the ability to access complete account management features are only a few of the benefits your organization receives by hosting your website with ILAP.

- **Flexible Plans:** Hosting plans automatically choose, each month, the plan with the lowest cost based on storage and transfer rates.
- **Redundant Servers:** ILAP provides clients with two web sites for each virtual server: a primary web site and a secondary web site to ensure your website is always accessible.
- **24x7 monitoring of service:** Ensure peak performance of connection.
- **Latest technology:** ILAP supports both UNIX and Microsoft platforms to ensure flexibility for our clients.
- **Centralized back-up services and off-site data storage:** Data secure and protected.
- **Net Centre Access:** The Net Centre provides clients with complete account management capabilities and web hosting tools.

### **High-quality, personalized support**

ILAP maintains a highly qualified technical staff, and continually makes investments in training, hardware and software to ensure your organization receives a superior Internet experience.

Our Network Excellence Group (NEG) perform the following tasks:

- Provide networking expertise to clients that require customized, complex solutions.
- Deliver fast, individualized support for all of our clients.
- Monitor the network 24 hours a day, 365 days a year.

### **State-of-the-art data centre**

ILAP has made tremendous investments in our facilities to ensure your investment is protected 24 hours a day, 7 days a week.

- 24x7x365 monitoring of connection and selected services
- Physical and electronic security measures
- Uninterrupted UPS power support
- 130 KW Power Generator
- Complete climate control system
